

Gwent League Athlete Registration System

Background

This season we are producing results using a different method to try and make the process faster and more accurate. Each athlete will wear a number with a barcode that they will keep for the whole season. At the finish, we will scan the barcodes of the athletes. We will then combine the list of barcodes and times to produce the results.

To enable this, we need an online registration system, initially containing all the athletes who ran in a fixture last season. Clubs will add any new athletes who are competing for the first time this season. Then they select all the athletes who need a barcoded number and click on a button that will assign a number to each one.

Ideally, we would like clubs to record a date of birth for each athlete so that they are automatically recorded in the correct age category at each fixture. None of the athletes who are in the database from last season have a date of birth set so clubs will have a number of records to process. Having some athletes in the incorrect age category in the first version of the results is something that happens at every fixture presently and we hope to be able to avoid this particular error.

We will issue the barcoded numbers to clubs by post or at a fixture. The registration system allows club managers to receive lists of athletes and numbers via email. Also, it will display the lists in a format suitable for printing. The club managers can then distribute the numbers to the athletes.

We have tried to keep the registration system as simple as possible. You can find usage instructions below. Please read these briefly before using the system. The system should display ok on laptops, desktops, and larger tablets. Support for mobiles may come later if there is time.

Quick start guide

For those who are confident with using IT systems and want a very quick and brief guide

- 1) Change your password.
- 2) The system is populated with all the athletes who ran last season and the first fixture of this one.
- 3) You can select athletes by the race they are registered for and gender.
- 4) For these athletes, set and save the date of birth and correct any name misspellings.
- 5) If you don't want to enter / don't have a date of birth just set the race and age category. The system will nag you but it will work
- 6) If you don't enter a date of birth, you will need to check that the age category is correct for the athlete before each fixture.

- 7) For athletes who have expressed an interest in running, click on the 'Assign Number' checkbox so that it is ticked.
- 8) Once you have selected the athletes you need, click on the 'Assign Numbers' button
- 9) The system will then assign a race number to each of these athletes.
- 10) You can email yourself a list of assignments or display a printable list via the 'email athlete details' and 'show all athlete details' buttons.
- 11) Don't just click on 'Assign Number' for everyone as it is likely that some athletes from last year are not going to show up this season.
- 12) Click on the 'Add New Athlete' button to create a new record to fill in and save
- 13) After you have added a new athlete and saved them, Assign a number to them straight away
- 14) If you run out of numbers, please email admin@gwent-registration.org.uk and I will give your club some more
- 15) Also, if you have any issues with the system also email me at admin@gwent-registration.org.uk and I will try and fix the problem.
- 16) If you forget your password, email admin@gwent-registration.org.uk. I will need to ask some questions to verify that you are a genuine manager
- 17) Numbers will be ready for collection at registration at the next fixture. Athletes need to keep their number for the whole season.

Login to system

Each club can have one or more team managers. Each of the managers will use their email address as their username. We will issue the managers with an initial password which they will be able to change.

**John H Collins Gwent Cross Country League
Athlete Registration System**

Username

Password

Changing password

To change your password, type in your username and current password. The system shows password hints underneath the new password field as you type. These will disappear as you enter a valid password.

John H Collins Gwent Cross Country League Athlete Registration System

Username

Password

New Password

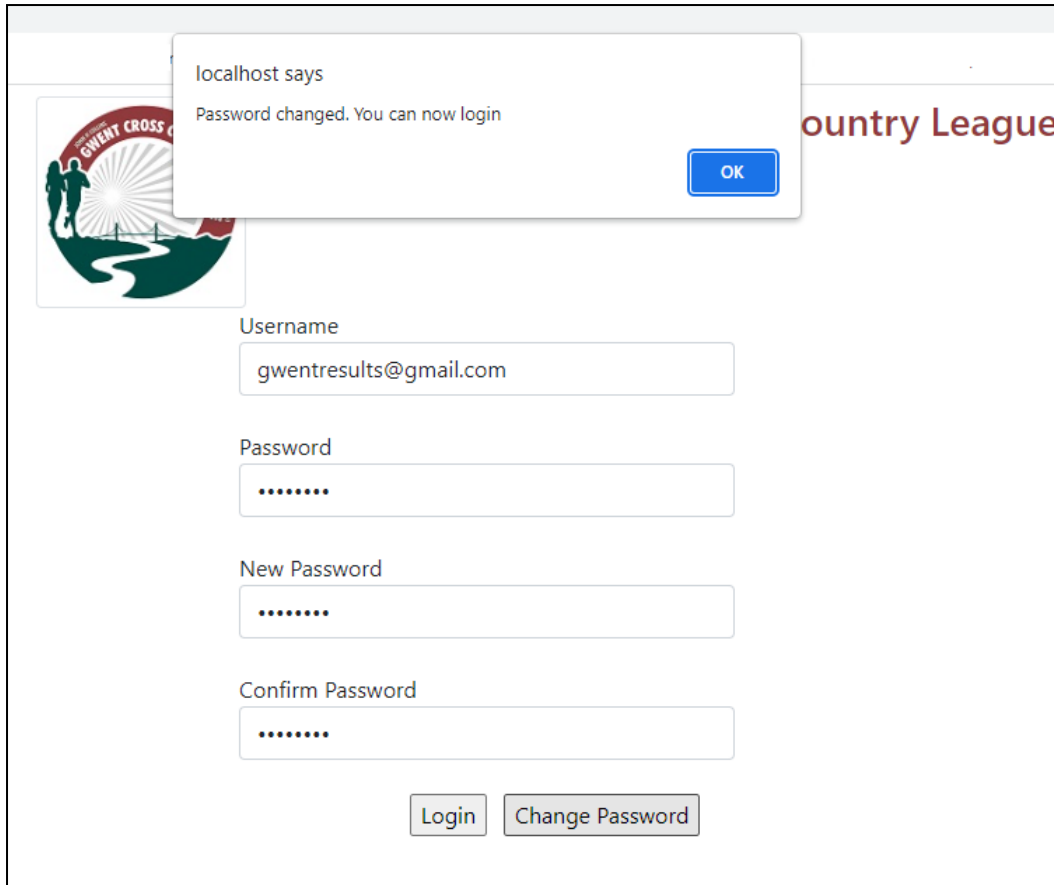

Passwords need at least 8 characters

Passwords need an upper case character

Passwords need a lower case character

Confirm Password

Click on '*Change Password*' and then login with the new password.

The image shows a web application interface with a login form and a confirmation dialog box. The dialog box, titled "localhost says", contains the message "Password changed. You can now login" and an "OK" button. The login form includes a logo for "GWENT CROSS COUNTRY LEAGUE" on the left, which depicts a runner on a path. The form fields are: "Username" with the value "gwentresults@gmail.com", "Password" (masked with dots), "New Password" (masked with dots), and "Confirm Password" (masked with dots). At the bottom of the form are "Login" and "Change Password" buttons. The text "Country League" is partially visible on the right side of the page.

Listing athletes

Select the race you want to register athletes to by selecting gender and then choosing from the race drop-down menu. You can refresh the display at any time by clicking on '*Find Athletes*'.

Surname	Forename	dob			Race	Category	Number	Assign Number	University Club	Individual	Guest
Burton	William	Day	Month	Year	Senior and U23	V60		<input type="checkbox"/>	Select University Club	<input type="checkbox"/>	<input type="checkbox"/>
Davis	Mark	Day	Month	Year	Senior and U23	V40		<input type="checkbox"/>	Select University Club	<input type="checkbox"/>	<input type="checkbox"/>
Harris	Keith	Day	Month	Year	Senior and U23	V35		<input type="checkbox"/>	Select University Club	<input type="checkbox"/>	<input type="checkbox"/>
Hicks	Carl	Day	Month	Year	Senior and U23	Senior		<input type="checkbox"/>	Select University Club	<input type="checkbox"/>	<input type="checkbox"/>
Martin	Gary	Day	Month	Year	Senior and U23	V40		<input type="checkbox"/>	Select University Club	<input type="checkbox"/>	<input type="checkbox"/>

Use date of birth to set age category and race

Ideally, we want managers to record the date of birth (dob) so that the system can calculate age categories and place the athletes in the correct race automatically. For example, changing the dob to 7th June 1977 for the second athlete in the table above automatically changes the age category to V45.

Davis	Mark	7	Jun	1977	Senior and U23	V45
-------	------	---	-----	------	----------------	-----

However, you can set the age category and race without entering the date of birth. You will need to check that the age category and race are correct before each fixture if you do this.

Junior athletes changing age group and race

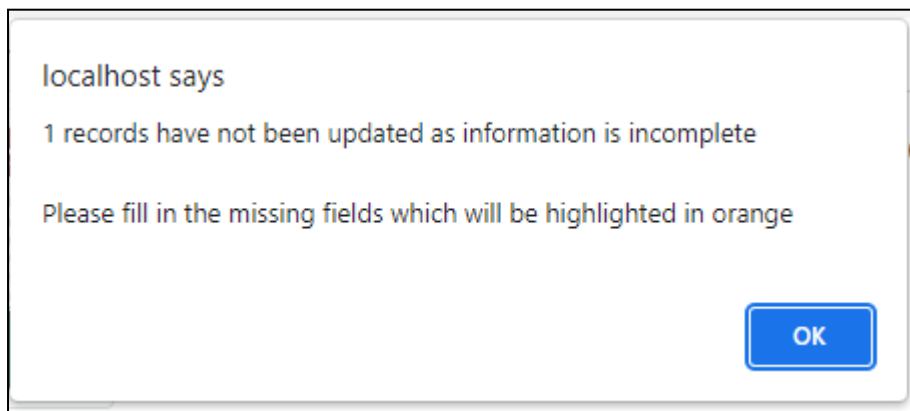

The system has been populated with athletes who ran last season. When you set the date of birth for Junior athletes who are moving up an age category, the system will update the *Race* and *Category* fields to reflect this. However, they will still appear in the original list of athletes until you click on '*Find Athletes*'. After that you will find them listed in the new age category.

Adding new athletes

Some athletes will have joined clubs between seasons and will not yet be in the database. To create a new athlete, click on '*Add New Athlete*'. An empty row will appear at the top of the table.

Surname	Forename	dob			Race	Category	Number	Assign Number	University Club	Individual	Guest
<input type="text"/>	<input type="text"/>	Day <input type="text"/>	Month <input type="text"/>	Year <input type="text"/>	Select Race <input type="text"/>	Select Category <input type="text"/>	<input type="text"/>	<input type="checkbox"/>	Select University Club <input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
Burton	William	Day <input type="text"/>	Month <input type="text"/>	Year <input type="text"/>	Senior and U23 <input type="text"/>	V60 <input type="text"/>	<input type="text"/>	<input type="checkbox"/>	Select University Club <input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>

Fill in the details and click on 'Save Athlete Details'. If there are fields with missing information, they will turn orange and you will see this message.

Don't check the 'Assign Number' checkbox at this stage. We do that after the new athlete record has been saved

Surname	Forename	dob			Race	Category	Number	Assign Number	University Club
		1	Month	Year	Select Race	Select Category		<input type="checkbox"/>	Select University Club

Enter data into all the required fields and then click on 'Save Athlete Details'. The new athlete record will stay at the top of the athlete list

Surname	Forename	dob			Race	Category	Number	Assign Number	University Club
Rose	Paul	1	Jul	1965	Senior and U23	V55		<input type="checkbox"/>	Select University Club
Burton	William	Day	Month	Year	Senior and U23	V60		<input type="checkbox"/>	Select University Club

You can now Assign a number to the new athlete record. Check the 'Assign Number' checkbox and then click on the 'Assign Numbers' button.

Do this before you attempt to add another new athlete. An alert window will remind you to do this.

localhost says

Please check the Assign Number checkbox and click on Assign Numbers to assign a number to the new athlete now

OK

Senior and Under 23		<input type="radio"/> Female <input checked="" type="radio"/> Male		Find Athletes	Assign Numbers	Save Athlete Details	Add New Athlete	Cancel Changes	Logout
Surname	Forename	dob	Race	Category	Number	Assign Number	University Club		
Rose	Paul	1 Jul 1965	Senior and U23	V55		<input checked="" type="checkbox"/>	Select University Club		

A number will be assigned to the new athlete which will appear in the *Number* field. The list of athletes is then refreshed and sorted alphabetically by *Surname* so the new athlete will shuffle down the list to its correct place. **This is not ideal system behavior but I need to always have the new athlete record at the top of the athlete list. This might change in future versions**

Editing athletes

You can edit any of the athlete details other than the number. If you click on '*Save Athlete Details*' when some information is missing, these fields will turn orange, as shown below. You can edit more than one athlete record at a time and when you click on '*Save Athlete Details*' changes to all the records will be saved.

Surname	Forename	dob	Race	Category	Number	Assign Number	University Club	
		1	Month	Year	Select Race	Select Category		Select University Club

Cancel Changes

You can undo any changes you have made to athlete records by clicking on the *Cancel Changes* button.

Assign numbers

Each club will have a list of athletes who ran last season. None of these have a number assigned or a date of birth set. For this set of athletes you can assign numbers to many athletes at once so the process is straightforward and quick.

For every athlete you want to assign a number to, click on the Assign Number checkbox so that it is ticked.

You do not have to assign a number to all the athletes but only those who are going to compete this season.

Also, you can assign a number to an athlete at any time during the season. For example, in the image below, if the second athlete in the list missed the first fixture but wanted to compete in fixture two, you can assign a number to them between fixtures one and two.

An athlete will keep the number for the whole season and needs to wear the number at each fixture. Each club will have a set of numbers that it can assign to athletes. We will give each club a number equal to the total number of athletes competing for the club last season, plus 10%. The 'Numbers Remaining' field shows how close you are to using all your clubs allocated numbers. If this gets to zero the system will prompt you to email admin@gwent-registration.org.uk to request some additional numbers so that you can continue to assign numbers to athletes. You can then receive the physical numbers by post or pick them up at the next fixture.

University club

Athletes can also register to compete for a 2nd claim University club. The manager of the 1st claim club needs to make this registration. Select a University club from the list and click on 'Save Athlete Details'.

Athletes from other clubs who are registered to compete for Bristol University

Surname	Forename	dob			Race	Category	Number	Individual	Guest	Club
<input type="text" value="Arthur"/>	<input type="text" value="James"/>	<input type="text" value="07"/>	<input type="text" value="Jul"/>	<input type="text" value="1973"/>	<input type="text" value="Senior and Under 23"/>	<input type="text" value="V45"/>	<input type="text" value="126"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text" value="Baltic Wharf Runners"/>

Note these important points.

1) The University manager cannot change the details of athletes in the bottom section. They will need to liaise with the 1st claim club manager to make changes.

2) When the University manager adds a new athlete, they need to set the University club as the system does not currently do that automatically.

Individuals and Guests

Athletes who are in the process of changing clubs can run for their new club as an Individual. In this case they can score points in the individual competition but not score points for the team.

Athletes can also run as a Guest which means that they do not score individual or team points.

There are checkboxes for both of these options and to use them, check the appropriate checkbox and click on ‘*Save Athlete Details*’.
